## FIBERGLASS

The **ARGON 3"** for Fiberglass from Spa Electrics has been purpose built from the ground up, to deliver a lighting solution that not only provides superior illumination and functionality, and is built with an emphasis on quality and ease of service.

From the strength and durability of its components, to its class leading LED performance; every aspect of the **ARGON 3"** for Fiberglass has been developed with the fiberglass builder in mind.

Its premium German engineered LED's and advanced optics are coupled with the industry's first forward-facing Heat Sink design; delivering a slim, modern profile while maximizing the cooling efficiency by forcing heat forward, into the pool - not the niche.

With the Quick-Connect plug attachment system and superior niche cable storage, the **ARGON 3"** for Fiberglass simplifies installation and service, makes this the perfect lighting solution for any fiberglass pool.

### SIMPLE INSTALLATION

The **ARGON** light comes pre-assembled as a single unit, right out of the box and ready for installation

### BUILT SMART

Innovative features, such as our IPX8 Quick-Connect Plug, ensure seamless installation and hassle-free servicing for years to come

### BUILT POWERFUL

Maximize light performance with **ARGON's** combination of advanced optics and engineered components to deliver maximum efficient output

The **ARGON Series** is designed and manufactured in Australia and backed by Spa Electrics' industry leading customer care network.
