ULTRA COMPACT LED NICHE LIGHT

VINYL

atom

The **ATOM** Series from Spa Electrics, combines premium design and LED performance in a package small enough to fit anywhere. Perfect for pools with step and beach entries that require illumination, but with the performance to light even the largest of pools

Featuring German engineered LED's and optics for superior light distribution, detachable cable for hassle-free service and Spa Electrics' patented DuoSink® heat sink technology, ensuring the **ATOM** Series will keep performing year after year.

The **ATOM** Series is designed and manufactured in Australia and backed by Spa Electrics' industry-leading customer care network. For more information on the **ATOM** Series and our other products, please visit www.spaelectrics.com

SELF ALIGNING

Using its unique washer and nut design, the ATOM Vinyl can self align on uneven shell walls, providing even sealing pressure around the entire niche circumference.

DETACHABLE CABLE

The ATOM Vinyl features the innovative detachable cable connection, providing a robust and reliable waterproof electrical connection.

SEALED CONDUIT

The sealed conduit entry point keeps the conduit dry and prevents pool siphoning. The specially designed compression plate allows for cable service and removal even after completion of pool installation.

The **ATOM Series** is designed and manufactured in Australia and backed by Spa Electrics' industry leading customer care network.
